

DRAMA OF THE AGES

FLY THROUGH HISTORY WITH THE ANCIENT BOOK

24. A WOUND AND A YOUNG
NATION

1260

1798 was the time foretold that the persecuting power of Rome was to receive a deadly wound and go into captivity.

Precisely on that year Berthier a general of Napoleon, marched into Rome, took the Pope captive and he died in exile. For a brief period the papacy was gone.

A new pope was soon elected but the political clout was gone, she still operated as a church but the beast-power that used the State to do her bidding was broken. The head had its deadly wound.

At this same period in history, just as foretold in Revelation 13, a new power was rising, not in crowded Europe, (waters) but out of the 'earth', an area sparsely populated.

What New nation
was arising at
this time? The
USA.

Almost as soon as the 'new world' was discovered, it became a refuge for people fleeing the persecution of their homelands by the Papacy and similar State churches.

Some set up colonies in the New World that are still there today.
